

**Product Specification Sheet**

<b>Effective Date:</b>	1/22/2020	<b>Supersedes:</b>	10/9/2018
<b>Product:</b>	Organic Gelatinized Red Maca Powder	<b>Country of Origin:</b>	Peru
<b>Product Code:</b>	MAPRG	<b>GFSI/GMP Status:</b>	BRC, HACCP
<b>Certified Organic:</b>	Yes	<b>Kosher Certified:</b>	Yes
<b>Gluten Free:</b>	Yes	<b>Non-GMO Status:</b>	Non-GMO
*Other certifications may be available from the manufacturer. Please contact your sales rep to discuss.			

<b>Botanical Name:</b>	<i>Lepidium meyenii</i>
<b>Ingredient Declaration:</b>	100% Maca root powder
<b>Packaging:</b>	HDPE bag in a cardboard carton
<b>Storage Conditions:</b>	Store in a cool, dry place.
<b>Retest Date:</b>	3 years from date of manufacture.

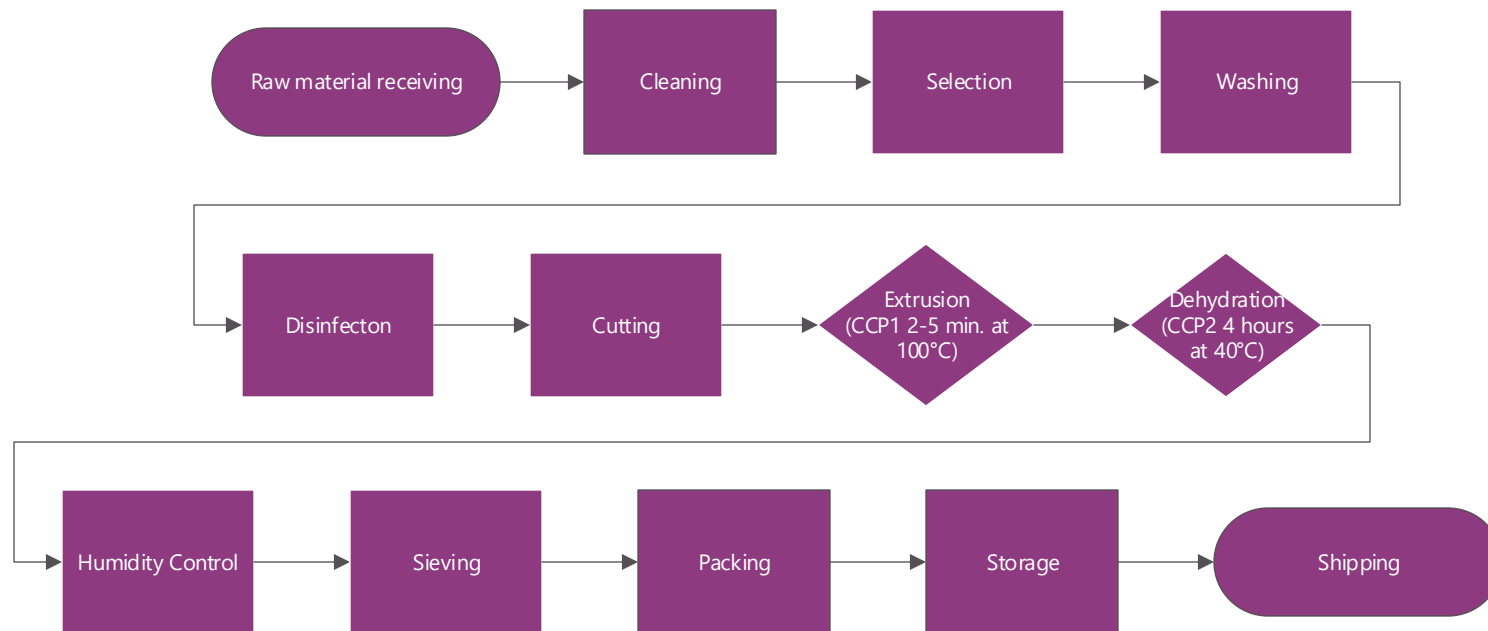

Organoleptic	Method	Specification	Test Frequency
<b>Color</b>	Organoleptic	Light beige to beige	Every lot by manufacturer
<b>Appearance</b>	Organoleptic	Fine powder	Every lot by manufacturer
<b>Aroma</b>	Organoleptic	Characteristic	Every lot by manufacturer
<b>Flavor</b>	Organoleptic	Characteristic	Every lot by manufacturer
Physical & Chemical	Method	Specification	Test Frequency
<b>Moisture</b>	AOAC	<8.0% by weight	Every lot by manufacturer
Microbiological	Method	Specification	Test Frequency
<b>APC</b>	AOAC/BAM/MFHPB	≤10,000 CFU/g	Every lot
<b>Coliforms</b>	AOAC/BAM/MFHPB	≤100 MPN/g	Every lot
<b>E. Coli</b>	AOAC/BAM/MFHPB	Negative	Lots tested by CCI
<b>Staphylococcus</b>	AOAC/BAM/MFHPB	Negative	Lots tested by CCI
<b>Salmonella</b>	AOAC/BAM/MFHPB	Negative	Every lot
<b>Listeria</b>	AOAC/BAM/MFHPB	Negative	Lots tested by CCI
<b>Yeast</b>	AOAC/BAM/MFHPB	≤1,000 CFU/g	Every lot
<b>Mold</b>	AOAC/BAM/MFHPB	≤1,000 CFU/g	Every lot

\*Testing Protocol: Cambridge Commodities may validate manufacturer's test results using a 3rd party, accredited laboratory. COA's provided will be certified laboratory results on items indicated as tested every lot unless they are unavailable or other format, such as manufacturers COA is agreed upon in advance between the customer and CCI. Testing methods vary based on who is conducting the testing.

### Change Log

<b>Change:</b>	<b>Date:</b>	<b>Customer Notice:</b>	<b>Approved:</b>

## FoodChain ID Standard Ingredient Form

*This form facilitates the verification process for enrolled participants. The Non-GMO Project (NGP) Standard requires FoodChain ID to assess all potential GMO (\*) risk ingredients, including highly processed ingredients and sub-ingredients. Detailed information from suppliers is required and highly appreciated. Thank you for your cooperation.*

*Instructions: This form should be used with the latest version of Adobe Reader. The manufacturer of this ingredient should complete, sign and return this form to enrolled participant. In turn, the participant should upload the completed form to their record.*

**Ingredient name:** \_\_\_\_\_

**Ingredient Manufacturer name:** \_\_\_\_\_

1. Is this ingredient 95+% Certified Organic? Yes No

2. Has this ingredient been verified as a product through the Non-GMO Project Product Verification Program?

Yes No

*If you have answered YES to question 2, please answer 2.1, 2.2, and 2.3. Then skip to the end of this document and fill out the signature section. If you have answered NO, please proceed to question 3.*

2.1 The NGP verified product name should be listed either on the NGP website or on the addendum of the NGP Certificate. If the NGP verified product is not listed on the NGP website, please provide the NGP Certificate with addendum.

2.2 Please provide name of customer to whom you are selling your NGP verified product below:

\_\_\_\_\_

2.3 Is any third party receiving and/or handling the NGP verified product in permeable\* form?

Yes No

*\*Permeable form: handling of NGP verified product in unsealed form.*

3. Ingredient properties (check either box A or B, displayed below)

A. The ingredient consists of a single input (“mono”). **Please identify the single raw material source (e.g. flax seed):** \_\_\_\_\_. *Select this option only if this is a 100% single ingredient and does **not** contain (or is used to process) any additives (i.e. preservatives, carriers, anti-caking agents, etc.) or processing aids (enzymes, solvents, extractants, microorganisms, etc.) in its manufacturing process.*

*If you checked box A, please skip question 4.*

B. The ingredient contains multiple inputs (“compound”).

*Select this option if the ingredient contains more than one input.*

4. In the table displayed below, list all of ingredient’s raw materials, additives, incidental additives, processing aids<sup>2</sup> and fermentation media/substrates and any other inputs that are used in the manufacturing process of the ingredient.

Examples include but are not limited to anti-caking agents in salts and standardizing agents in powders, solvents in extracts, all processing aids, including enzymes, microorganisms and extractants, as well as additives like preservatives, carriers, pH adjusters and antioxidants in oils.

Sub-ingredient name	Identify all inputs used in manufacturing of sub-ingredient(s) or indicate that sub-ingredient is 100% raw material	Is this input a processing aid*?
<i>Example: Sunflower Oil</i>	<i>Example: 100% Sunflower seeds OR sunflower seeds, citric acid and vitamin E.</i>	<i>Check the box if the ingredient is a processing aid.</i>
		<input type="checkbox"/>
		<input type="checkbox"/>
		<input type="checkbox"/>
		<input type="checkbox"/>
		<input type="checkbox"/>
		<input type="checkbox"/>
		<input type="checkbox"/>

Additional rows needed and supplementary list is attached. (Please sign and date supplemental list.)

\* Fermentation microorganisms are not considered processing aids for purposes of the Non-GMO Project Standard.

*The following questions apply to the ingredient itself, and if a compound, to ALL its sub-ingredients and/or inputs used to produce its sub-ingredients. These should be fully disclosed in the table above (including any proprietary formulation).*

5. Is this ingredient or its sub-ingredients, including inputs used to produce them, microbial or produced with a microbial culture?  Yes  No  
*(Please select YES even if microorganism has been removed or degraded in finished fermented or processed material)*

Please list ingredient/sub-ingredient(s) and/or all inputs to which your response applies:

5.1 *If Yes*, are any of the microorganisms genetically modified?<sup>1</sup>  Yes  No

If you have answered **Yes** to question 5.1 please answer the following questions:

5.2 Are any of the micro-organisms viable?<sup>3</sup>  Yes  No

*If No*, please explain how micro-organisms are rendered non-viable (describe processes used):

5.3 Is/are the input(s) present in purified<sup>4</sup> form?  Yes  No

*If Yes*, please identify the purified inputs and processes involved in purification:

*For additional information about requirements for cultured/microbially processed ingredients that contribute 0.5% or greater to a finished product enrolled in the Non-GMO Project Product Verification Program (discounting salt and water), request Annex II of this form.*

6. Is this ingredient or its sub-ingredients, including inputs used to produce them, either enzymes or produced with the help of enzymes?  Yes  No  
*(Please select YES even if enzyme has been removed or degraded in finished fermented or processed material).*

Please list ingredient/sub-ingredient(s) and/or all inputs to which your response applies:

---

---

7. Is this ingredient or its sub-ingredients, including inputs used to produce them, a product of synthetic biology (*i.e.* produced with synthetically created nucleic acid sequences and/or genes)?  Yes  No

*If Yes:*

Please list all ingredient/sub-ingredient(s) and/or all inputs to which your response applies:

---

---

8. Is this ingredient or its sub-ingredients, including inputs used to produce them, derived from animal sources (e.g. dairy, meat, eggs, bee products, wool/hides, etc.)?  Yes  No

*If Yes:*

Answer the following for each animal-derived input (ingredient, sub-ingredient or any inputs used in processing):

- Is rBGH, rBST (recombinant bovine growth hormone or recombinant bovine somatotropin) administered to the livestock?  Yes  No
- Are Animal husbandry practices involving cloned spermatozoa (cloned animals or their progeny) used?  Yes  No
- Are Bee products, viz. honey, bee pollen, etc., used?  Yes  No

*If Yes, for additional information about requirements for bee products that contribute 0.5% or more to a finished enrolled NGP product (discounting salt and water), request Annex III of this form.*

9. Is the ingredient or any sub-ingredients derived from alfalfa, canola, corn, cotton, papaya, soy, sugar beets, yellow summer squash, or zucchini? (Disclosure of this information is required.)  Yes  No

*If you selected Yes to questions 5, 6, 7, 8 or 9, complete the following table for applicable ingredient, sub-ingredients and/or inputs used to produce the sub-ingredient:*

Ingredient name/Sub-ingredient name/Input name used to produce Sub-ingredient	Percentage of the finished ingredient (discounting salt and water) if known	Certified Organic or other Non-GMO certificate (i.e. IP)? <i>If Yes provide certificate with addendum</i>	Please check any of the following for which you answered Yes					Complete this section only if you answer Yes to Q9										
			Q5	Q6	Q7	Q8	Q9	Alfalfa	Canola	Corn	Cotton	Papaya	Soy	Sugar Beets	Squash	Yellow Summer	Zucchini	Countries and/or regions of origin

Additional rows needed and supplementary list is attached.

For additional information about requirements for reclassifying high GM risk crop ingredients to low GM risk designation as a result of exclusive procurement from GMO free countries/regions, request Annex IV of this form.

10. For any waterborne ingredient or sub-ingredient,<sup>5</sup> algae/microalgae,<sup>6</sup> fish or other water dwelling organism, please specify whether it is wild harvested/wild caught or cultivated<sup>7</sup>/farmed.<sup>8</sup> Please disclose this information for each supplier used.

Input name(s) (e.g. Spirulina): \_\_\_\_\_ wild harvested/wild caught?  Yes  No  
 Input name(s): \_\_\_\_\_ wild harvested/wild caught?  Yes  No

If cultured algae accounts for more than 0.5% of final product (discounting salt and water), additional information about nutrients/substrates will be required; please request Annex II.

<sup>1</sup>**GMO or genetically modified organism:** A plant, animal, microorganism, or other organism whose genetic makeup has been modified using recombinant DNA methods (also called gene splicing), gene modification, or transgenic technology. Cloned animals and their progeny are also considered GMOs under this Standard, as are the products of synthetic biology.

<sup>2</sup>**Processing Aid:** An input that is (1) added during the processing of the product but is removed in some manner from the product before it is packaged in its final form; (2) added during the processing of the product and converted into constituents normally present in the product and which does not significantly increase the amount of the constituents naturally found in the product; or (3) added to the product for its technical or functional effect during processing but is present in the finished product at insignificant levels and does not have any technical or functional effect in the finished product.

<sup>3</sup>**Viable microbe:** a microbe that performs metabolic functions and reproduces/multiplies itself.

<sup>4</sup>**Purified material:** an ingredient is considered purified if it has been extracted from other molecules, elements, or systems where found or produced and its impurities have been removed so that they have no technical effect.

<sup>5</sup>**Waterborne ingredient or sub-ingredients:** include but are not limited to 'sea vegetables,' 'fruits' or other freshwater inputs.

<sup>6</sup>**Algae/microalgae:** chlorella or spirulina species etc.

<sup>7</sup>**Cultivated:** for algae.

<sup>8</sup>**Farmed:** for fish or other waterborne animals.

Please sign to attest that your answers to the above questions are true and accurately rendered. Acceptable signature forms include handwritten signatures, hand signature images, and typed names with a company seal or electronic/digital script signatures; a printed name alone will not suffice as signature.

Signature (Manufacturer) \_\_\_\_\_ Printed name \_\_\_\_\_
